

Dedicated Plug 'n' Play AVoIP Switch

Designed for larger installations upto 45 endpoints.

- Compatible with all Netvio JP4 & JP4-60 AVoIP systems.
- Large 850W PoE budget to power every connected device.
- Supports Video Walls and 1080p/30 RTSP media source previews.
- Fully compatible with the powerful Netvio Go control application for iOS & Android.
- Connectivity for Netvio IP-JP4-CL-10 and up to 45 TX, RX end-points.
- 'One Touch' system configuration within Netvio 360 software.

Application Note

For installations of 46 endpoints and over, Netvio supports a range of 3rd party switches. These 3rd party switches will not support 'plug and play' or 'One Touch' network configuration features.
